# OVERALL COURSE OBJECTIVE

Course for leaders, executives and decision-makers  
(LEADers)

- Improved understanding of the Ecosystem Approach to Fisheries Management (EAFM) at different levels of government and across sectors.
- Understand the need for developing capacity and taking steps towards the implementation of an EAFM

# What's in it for you and your agency?

- helps link existing approaches through a logical and comprehensive framework
- focuses on the real issues and their causes
- increases trade opportunities and demand for fisheries products
- reduces conflicts and political tensions
- helps staff become more effective in natural resource management
- helps leverage funding and leads to better allocation of existing funds
- results in sharing of responsibilities and human resources with other agencies
